

CLE Performance Task 9D

Artist: Pauliana Therese A. Singson

MEMBERS OF THE GROUP:

BASBAS, CLOUD KENT
BUENAFLO, GIAHN PEARL
GAYACAO, THEA CLAIRE
SINGSON, PAULIANA THERESE
SNOOK, ECHEL MALINAO

TEACHER:

SIR RAINHEART PINUELA

INTRODUCTION:

Here in the Philippines teenage pregnancy is a big problem, a lot of teenagers live in the slums are not educated enough to know things like this. For them it's normal, it gives them self satisfaction. They depend on their parents for the needs of their own child. Or they could abort the baby because they are not ready to face the challenges having a child at a young age. It could also be an accident like partying and they met someone while they are drunk, they couldn't understand what they are doing until the girl gets pregnant and the boy don't want to take responsibility for the child.

SOLUTIONS FOR TEENAGE PREGNANCY:

- Parents must help their teens have options for the future that is much more attractive than early pregnancy and parenthood.
- Strive for a relationship that is warm and affectionate—firm in discipline and rich in communication. Emphasize mutual trust and respect.
- Emphasize how much you value education. Set high expectations for your child's school performance.
- Discourage early, frequent, and steady dating.
- Take a strong stand against teens dating people who are significantly older or younger than they are.

PRAYER:

Dear God, our heavenly Father, we pray for your guidance and protection in these trying times of the pandemic. Heal those who are unwell and give them the courage to combat their sickness by reminding them that with you by their side, they can accomplish anything. Forgive us for the sins that we have committed, let your light shine through all of us. Teach us how to cultivate genuine joy that comes from within and sustains any circumstances. In Jesus' name, we pray, amen
